WELCOME TO 2020

We are dedicated to creating innovative products that meet the highest quality standards. As one of the world's leading manufacturers of hand-sewn balls, we have continued to innovate and expand our line of products since our founding father, Eigil Nielsen, created the first SELECT football in 1947.

We are now official match ball supplier in 12 of Europe's top football leagues, including several leagues in the United States, stating our position as the number one league partner. We are proud to now include Liga Portugal and to be represented in their 1st and 2nd league as well as the Allianz CUP.

Another major addition to our league partnerships is the Bundesliga. 2020 will be our third year for our German subsidiary DERBYSTAR as official match ball in the Bundesliga and 2nd Bundesliga – ranked as one of the best football leagues in the world by FIFA.

SELECT handballs are official match balls in a wide range of associations, leagues and clubs around the world. We are the world's largest producer of handballs and our iBall, the world's first intelligent handball, continues to add new insights into the game across Europe. We are proud to see the iBall technology included in the German Handball-Bundesliga, the French Handball Federation and premiering at the Men's EHF Euro 2020.

Our vast range of products have been updated with new Profcare elastic supports, the Eco Ice Pack and we are offering two new lines of player clothes: Monaco for match, training and leisure and Pisa for match and training.

We know that our actions matter. We are continuously taking sustainable steps in our production, packaging and business partner efforts. To name a few, we have reduced our use of plastic in our Profcare Supports saving 300.000 polybags annually, cut the plastic use in our garment packaging by 50%, and we are now using a non-woven backing layer made of recycled PET bottles in our Primera football.

We are player's choice and our ongoing mission is to develop high quality products for all players.

Welcome to our catalogue for 2020.

THE ORIGINAL 32 PANEL BALL CONSTRUCTION

Every single football, handball and futsal ball from SELECT is based on the revolution from 1962, where our founder, Eigil Nielsen, invented a ball made of 32 panels. The overriding desire was to create the most reliable ball with the most predictable, straight flight and a bounce neither too high nor too low.

It was impossible to make a perfectly round ball with just 18 panels, which was the standard construction of a ball in the past. With the 32 panels – 20 hexagons and 12 pentagons – SELECT succeeded in creating the roundest ball ever seen. Later, a group of American scientists won the Nobel Prize for discovering that the molecules of carbon with a special irradiation organize themselves as a completely round ball – something Eigil Nielsen had already discovered and realized in his football with 32 panels, why the reinvention was named “the football molecule”.

A ball with optimum roundness is essential to obtain reliable aerodynamic – a straight flight and a controlled bounce. Our finest football, BRILLANT SUPER TB, has just been thoroughly tested in a wind tunnel at the Institute of Health & Sports Science at the University in Tsukuba, Japan. The results show that BRILLANT SUPER has a better aerodynamic than other top balls in the market. The ball’s classic construction with 32 panels means that the ball meets resistance at a later point in its trajectory through the air, thus retaining a steady, high speed over a longer period of time. This provides a stable and more predictable flight – highly valued by all football players.

The majority of our balls are still based on Eigil Nielsen’s original invention of the 32 panel ball construction, as we never compromise on quality, playability or durability.

THE OPTIMUM ROUNDNESS

A football with optimum roundness is essential to obtain reliable aerodynamics and superior playability.

Hidden behind the elegant exterior in many of our footballs in the Pro and Club series, is a specially developed Zero-Wing bladder made of high performance natural latex.

The Zero-Wing concept ensures a perfectly round and balanced ball, always maintaining its shape through impact, resulting in a straight flight and a controlled bounce.

PERFECT FLIGHT

As SELECT footballs have a perfect and stable flight, the trajectory of the ball is easier to estimate correctly - the player's skills determine where the ball goes - not the ball's unpredictable flight.

FOOTBALLS

OFFICIAL LEAGUE MATCH BALLS

SELECT is the official match ball supplier for the Danish national team, the Portuguese league, the Bosnian and Herzegovinian league, the Romanian league, the Belgian league, the Danish men's and women's league and first division, the Norwegian men's and women's league, the Finnish league, the Icelandic league and the Swedish league and first division. In USA, SELECT is the official match ball of the USL and NJCAA as well as several High School State Conferences nationwide.

Our BRILLANT SUPER ball is also supplied to a vast number of teams and federations around the world.

Furthermore, our German subsidiary DERBYSTAR is the official match ball supplier for the Dutch league and the German Bundesliga. The Bundesliga is ranked as one of the world's best football leagues by FIFA.

DERBYSTAR by SELECT

DERBYSTAR is official match ball supplier for the Bundesliga and the Bundesliga 2 with BUNDESLIGA BRILLANT APS.

DERBYSTAR has been a part of SELECT SPORT since 1991, building a strong position in the top football leagues in Europe through the years.

DERBYSTAR is deeply rooted in the German football community with relations to elite clubs throughout the regions. The Bundesliga is among the strongest leagues in the world ranked second best by FIFA making this partnership a force in the world of football.

A MASTERPIECE OF INNOVATION

BRILLANT SUPER TB has the characteristics that distinguish a classic SELECT ball and is suitable for matches at the absolute highest level. The materials are carefully selected and have exactly the qualities that give the best playability and durability.

The optimum roundness is ensured with the well known 32 panels spread over 12 pentagons and 20 hexagons. The outer material of the ball consists of synthetic leather with a light surface structure that minimizes air resistance.

Under the synthetic leather hides the SELECT natural latex Zero-Wing bladder with built-in balance point in the opposite end of the valve hole. On the outside of the bladder is a lining made of a 4 mm. thick and exclusive foam material. The outer material and the underlying foam give the ball a softer, lighter and a more comfortable touch. Despite the fact that the ball feels lighter, the weight is the same as a traditional football.

The 32 panels are thermo bonded. “TB” in the product name stands for “Thermo Bonded”, which means bonded by heat - so there are no stitches. This means the ball takes up less water and keeps the original weight better when playing on a wet surface.

The ball has, among other places, been tested at the Institute for Health & Sports Science at Tsukuba University in Japan. The test results showed that the ball – just like other balls from SELECT – faces less wind resistance in the first part of the flight, moves easier through the air and meets wind resistance later than other balls on the market.

Ball size	Circumference	Normal weight	Light weight
3	60-62 cm.	320-340 g	280-310 g
4	63,5-66 cm.	350-390 g	290-320 g
5	68-70 cm.	410-450 g	350-380 g

HAND STITCHED – LONG LASTING EXCELLENCE

A SELECT Hand-Stitched football consists of five crucial elements:

1

PU
SURFACE

4

ZERO-WING
BLADDER

2

HAND-
STITCHED

5

DOUBLE LOCK
WALVE

3

HIDDEN BEHIND THE ELEGANT EXTERIOR

Common to all our balls is that the quality is high and the durability long. An optimally round football consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 630 double stitches and 60 corner stitches and are closed off – especially for SELECT – with a double knot. The ball lasts longer this way.

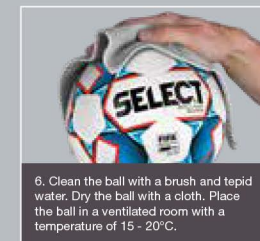

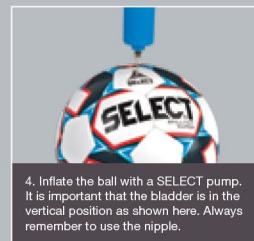

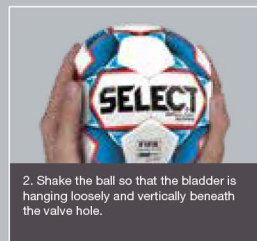

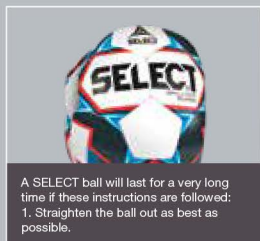

Hidden behind the elegant exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high-performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our footballs with build-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and ensure that it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of this material can be either "shiny", "grain" or "pattern" and consists of lots of PU fibres. Combined, this gives a strong surface with consistent softness.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here, they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance. Our standards for quality are the highest in the industry and the balls are of course tested and approved according to FIFA and IMS standards.

Ball size	Circumference	Normal weight	Light weight
3	60-62 cm.	320-340 g	280-310 g
4	63,5-66 cm.	350-390 g	290-320 g
5	68-70 cm.	410-450 g	350-380 g

DUAL BONDED – UNCOMPROMISED PERFORMANCE

A SELECT Dual Bonded football consists of seven crucial elements:

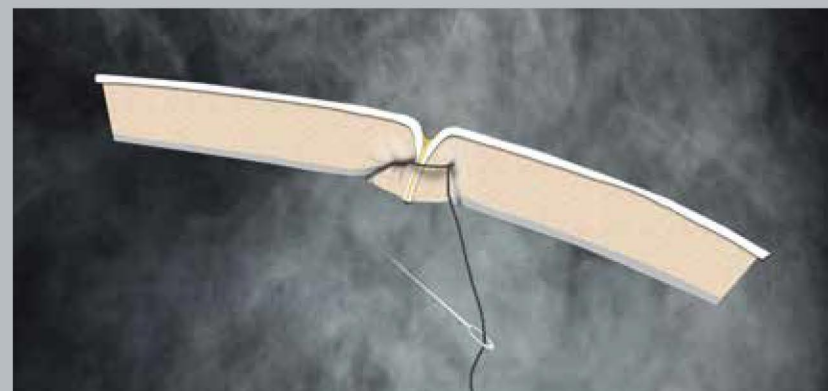

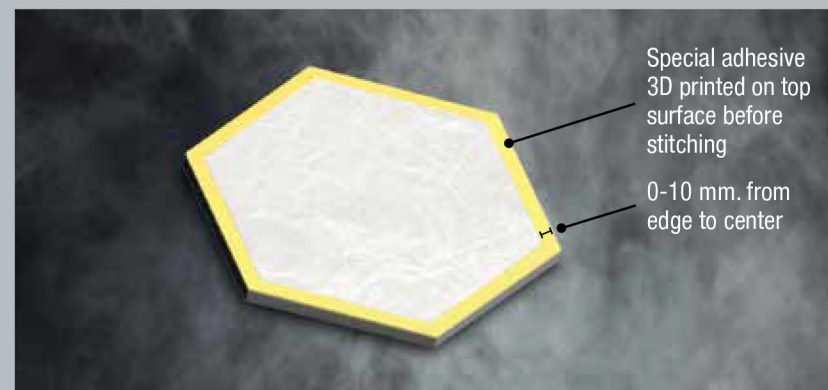

DUAL BONDED - IMPROVED STABILITY AND A SOFTER TOUCH

The special feature of the dual bonded production method is that the ball's 32 panels are both stitched together and then sealed in the edges.

A DB ball is a construction that consists of a TPU-material laminated with foam. Next, two layers of textile underlining are laminated to the foam layer to add stability. The panels are then printed with 3 mm. edge glue and stitched by hand or machine. The glue is activated in the heat mold to hide the stitches and the seam sealing is done by hand. By using glue in the sealing of the seams, the water uptake is reduced significantly.

The bladder inside is an SR bladder with excellent air retention. The result is a football with both stability, control and a softer touch compared to other footballs. Both MATCH DB and ULTRA DB balls are produced using the dual bonding method.

Ball size	Circumference	Normal weight	Light weight
3	60-62 cm.	320-340 g	280-310 g
4	63,5-66 cm.	350-390 g	290-320 g
5	68-70 cm.	410-450 g	350-380 g

NO GRASS? NO PROBLEM

Designed to outperform and outlast the competition on artificial turf surfaces

Why choose SELECT TURF specific footballs?

Across the country, more and more organizations are utilizing synthetic turf surfaces that claim to deliver a “grass-like” experience. There is no denying the benefits that these types of surfaces deliver to youth and adult football players.

However, football players can testify to some of the harsh characteristics of artificial surfaces:

- Synthetic surfaces can cause a standard ball to skip and roll more quickly than it would on a grass surface.
- The rubber filling and synthetic fibers can cause a standard ball to peel and rip from regular use.

What makes SELECT TURF series different?

SELECT's commitment to innovation and quality has led to the development of the FPUG material used on SELECT turf series balls. FPUG is an extremely durable yet soft casing that improves the life of your football while ensuring natural playing characteristics.

All SELECT TURF footballs are 100% handstitched. By hand stitching, SELECT has ensured that these balls will maintain their shape and offer exceptional durability.

LOW BOUNCE FOR OPTIMUM CONTROL

Common to all our balls is that the quality is high and the durability long. An optimally round futsal ball consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 630 double stitches and 60 corner stitches and are closed off – especially for SELECT – with a doubleknot. The ball lasts longer this way.

Hidden behind the elegant exterior of the futsal balls hides a specially developed butyl bladder with polyester fibers inside. That ensures a very reliable low bounce compared to a normal football making it much easier to control. All our balls have a butyl valve inside covered by foam to avoid the bladder from puncturing when inflating the ball.

To stabilise the ball and ensure it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of this material can be either "shiny", "grain" or "pattern" and consists of lots of PU fibers. Combined this gives a strong surface with consistent softness.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance.

Our standards for quality are the highest in the industry and exceed FIFA's regulations for the best match balls. The balls are of course tested and approved according to FIFA and IMS standards.

	Circumference	Weight	Bounce	Approval
Futsal Super	62,5-63,5 cm.	410-430 g	55-65 cm.	FIFA QUALITY PRO

DUAL BONDED FUTSAL SPEED DB

A SELECT Dual Bonded futsal consists of seven crucial elements:

- 1 PU SURFACE
- 2 STITCHED
- 3 DUAL BONDING
- 4 FOAM
- 5 LINING
- 6 SR BLADDER
- 7 DOUBLE LOCK WALVE

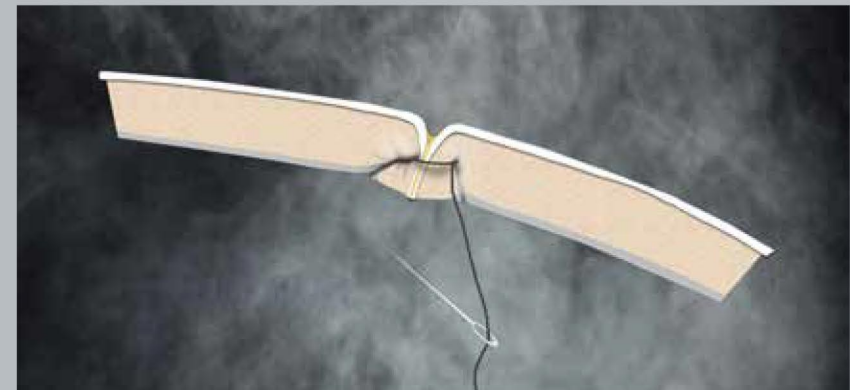

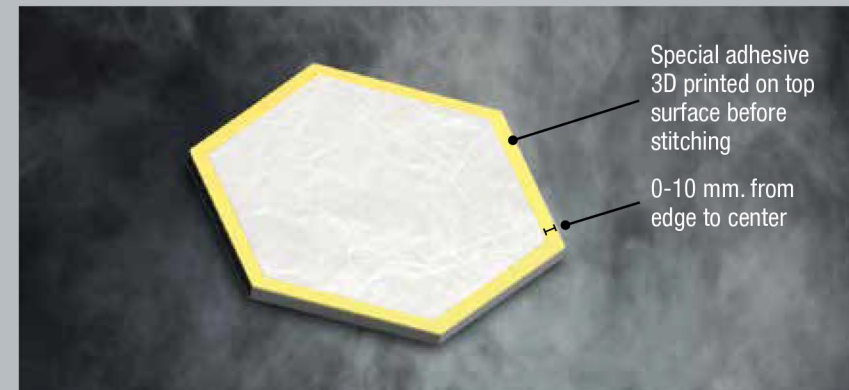

DUAL BONDED FOR A SOFTER TOUCH AND OPTIMUM ROUNDNESS

Futsal is a technically demanding sport that requires a special ball. We are introducing the futsal DB ball. The 32 panels are gathered with glue and stitched together - the dual bonding method. The panels are gathered by printing them with 3 mm. edge glue and then stitched. The glue in the edges is activated in a heat mold to hide and seal the stitching. This makes the ball even more round, as you cannot feel the gathering of the panels.

The ball is made from a high-quality PU material and a special foam padding that ensures an extra soft touch and faster passes.

Inside the ball is a specially developed botyl bladder filled with polyester fibers, which ensures a reduced bounce, perfect roundness and easy control.

The Futsal Speed DB ball is produced using the dual bonding method.

FUTSAL SUPER

- Preferred by numerous professional leagues, teams and players around the world

EKSTRAKLASA

A CREATIVE PLAYGROUND

Futsal is an extremely intense and emotional game and therefore also exciting to watch. Besides the fast pace, more goals are scored and there are more shots on goal than in traditional football. The surface, the ball and the rules demand improvisation, creativity and fine technique from all five players on each team.

Our line of futsal balls stands out with a dynamic and contemporary design. With a classic white base colour and powerful coloured edges, the balls are perfectly visible for players, goalkeepers and spectators. The design has been created with fast player reactions in mind, and developed from valuable feedback given by professional league players, youth players and a professional goalkeeper.

Our massive range of futsal balls has a controlled bounce in accordance with the rules, and we are proud to be first-movers in the development of specific balls regulated in circumference and weight for each age group. We believe that young futsal players need balls that are smaller and lighter and are adjusted and adapted to their age. This is why we created the Futsal TALENTO range, which has been specially developed for kids and juniors.

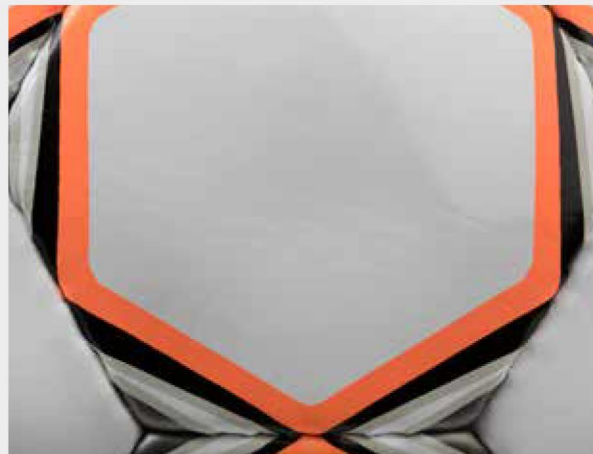

FUTSAL MASTER SHINY

- New, colorful design for improved visibility and faster player reactions
- One of our most popular match and training balls made of high quality PU material

360 DEGREES OF PERFECTION

Common to all our balls is that the quality is high and the durability long. An optimally round handball consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 540 double stitches and 60 corner stitches and are closed off – especially for SELECT – with a double knot. The ball lasts longer this way.

Hidden behind the colourful exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our handballs with built-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and to ensure it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness as well as the weight of the ball.

Ball size	Circumference
00	41-43 cm.
0	46-48 cm.
1	50-52 cm.
2	54-56 cm.
3	58-60 cm.

The most important factor regarding the softness of the ball is actually a layer of neoprene foam, which is placed between the lining and the synthetic leather. The foam maintains its softness and elasticity match after match.

The synthetic leather used in our handballs consists of an outer layer of "grippy" PU with a backside of non-woven polyester fibre. In addition to this, the special fibre threads are inlaid in a crisscross fashion to ensure the strength and stability of the material. This ensures a ball with a perfect grip, optimal balance and extreme durability.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance.

EUROPEAN HANDBALL
FEDERATION

DUAL BONDED – PASSION FOR CRAFTSMANSHIP

A SELECT Dual Bonded handball consists of seven crucial elements:

DUAL BONDED FOR A SOFTER TOUCH AND IMPROVED ROUNDNESS

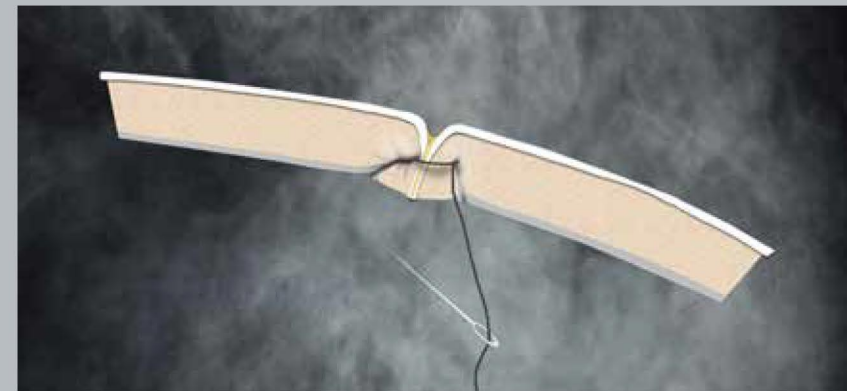

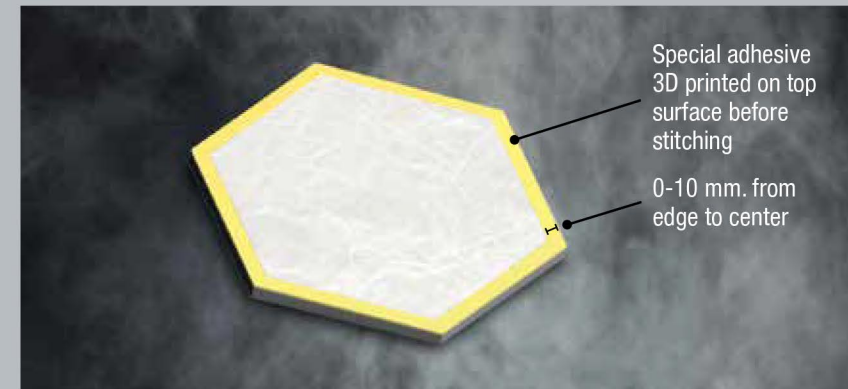

The special feature of the dual bonded method is that the ball's 32 panels are both stitched together and then glued in the edges.

The ball is constructed with an outer PU material laminated with 2 mm. foam and then an extra inserted 3 mm. layer of foam between the surface and the inner bladder. The panels are printed with 3 mm. edge glue and stitched by hand or machine.

The glue in the edges is activated in a heat mold to hide and seal the stitching, which means that the gathering of the 32 panels cannot be felt, and the ball therefore becomes even more round.

The DB method is used in our handball, FORCE DB and COMBO DB. The bladder in this ball is a reinforced SR bladder with excellent airtightness for increased stability and controlled bounce. The overall combination of the materials and the production method gives the feeling of an incredibly soft handball with improved grip and roundness.

Ball size	Circumference
00	41-43 cm.
0	46-48 cm.
1	50-52 cm.
2	54-56 cm.
3	58-60 cm.

ULTIMATE iBall WITH A BUILT-IN CHIP THAT TRACKS AND DISTRIBUTES DATA IN REAL TIME

SELECT presents the world's first intelligent handball, Ultimate iBall, with a built-in chip that tracks and distributes data in real time. The handball premiered at the VELUX EHF FINAL4 2018. This was the first major in European sports to use the new tracking technology capturing exact ball speed, shot detection, position of the shot and more bringing fans closer to the game. Currently, the iBall is used in the German Handball-Bundesliga, the French Handball Federation and will premiere at the Men's EFH Euro 2020.

The SELECT Ultimate iBall and the associated new insights into the game will make the performance of players more tangible and result in a significant increase in fan engagement.

iBall TECHNOLOGY

Spectators are able to observe the speed of the ball and the distance from goal for every shot in the game.

The shot distribution on court from one team or a specific player will be displayed for broadcasting and digital channels.

The position of every shot entering the goal will be displayed, illustrating scoring strategies. All information is detected automatically and in real-time with interfaces for both broadcast and digital channels.

MAXI GRIP

SELECT MAXI GRIP has a unique, sticky surface without the use of resin.

This results in an excellent grip around the ball and less work in cleaning the floor; two major requirements from coaches and players in all age groups.

The surface of the MAXI GRIP handball is sticky when you catch the ball but leaves no traces of adhesives on your hand when you release it.

MAXI GRIP enables children, youngsters and arenas with a ban on resin to play with a ball that has an adhesive surface – a breakthrough in junior training and matches.

Product of the Year

MAXI GRIP

- Training ball
- A newly developed handball for youngsters with a unique sticky surface that provides excellent grip around the ball without the need of resin
- The surface is sticky when you catch the ball, but when you release it, your hand remains clean with no traces of adhesive and the ball does not leave traces on hands or sports floors. Under the surface, the ball has the well-known and highly renowned SELECT features
- The ball is made of soft and durable HPU material and when the stickiness goes, the player still has a high quality handball
- Tested by SGS and contains no harmful substances

CLOTHING

MONACO - EXCEPTIONAL QUALITY AND FIT

We are introducing our new clothing range MONACO. The range is a multifunctional team sport collection with styles that cover everything from matches, training and leisure wear for both elite and amateur clubs.

The textured material used in our player shirt, player shorts and training wear is quick-drying, breathable and lightweight. This enables the athletes to perform their absolute best.

The leisure part of the range also features dry-wick qualities with a modern style fit for athletes when recovering from matches and training. The styles are functional in comfortable fabrics for the everyday wardrobe and the perfect apparel to and from training or when travelling.

**GOALKEEPER
GLOVES**

AN ANATOMICAL WORK OF ART

With the aid of an Anatomical Fit System the gloves have been designed with a slight bend according to the natural gripping position of the hand. Thus ensuring comfort, flexibility and movement of the glove in time with the speed of the fingers.

The top model 88 PRO GRIP has an elastic insert between the index finger and thumb for optimal freedom of movement. The back of the hand consists of 3 mm deep embossed soft latex in combination with a heat injection rubber pattern making the glove softer and more flexible than before. A wide wrist strap allows a feeling of stability and safety in the wrist.

The most important thing of all is of course, the palm. 3mm NOVA Grip Latex guarantees a perfect grip in all weather conditions.

The Negative glove cut is also made of latex to provide constant latex contact between the hand and the ball. The soft inner material provides optimum comfort, increases the glove's flexibility and ensures minimal water absorption when playing in wet weather.

PERSONALIZE YOUR GLOVES

On all the gloves in our range, we have made space to print a name on the wide latex strap. Contact your local distributor for details.

Types of cuts

Negative Cut

A popular glove cut choice that reminds of Flat Cut. This style of cut also has gussets between the palm and the backhand. The gussets of the 88 glove are also made of latex giving constant latex contact between the glove and the ball. Negative Cut fits snugger and the fingers are held in place giving optimal ball contact when catching. This is the most common cut among professionals.

Hyla Cut

Features the best aspects of a roll cut and a flat cut. Latex is rolled around the individual fingertips for a snug fit and feel combined with a flat style palm that gives the fingers increased comfort and breathability. The unique combination of fit and feel allows the user to have the great fit of roll finger combined with the flexibility of flat cut.

Flat Cut

Traditional glove cut with a flat palm construction providing a larger area of contact and making the glove more flexible. This style of glove typically fits looser than many other styles with more room for the fingers. Flat Cut is the most popular cut used for finger protection gloves.

Glove size

Measure the length of the hand as shown and find suggested sizes in the chart below.

Latex technology

Flexion Latex

Durable latex developed for youth gloves. Suitable for all weather conditions

New Basic Latex

Durable latex with a fantastic grip in all kinds of weather that makes it suitable for both training and matches

New Softy Latex

Soft and durable latex - suitable for all weather conditions. Highly recommended to pre-wet for best grip possible

Dura Grip Latex

Soft and strong latex for all weather conditions. The latex is longlived and suitable for both training and matches

Dura Pro Latex

Strong and durable latex especially suitable for use on artificial grass

Elite Super Soft

High quality latex for professional matches. The glove has a perfect grip in all kinds of weather.

Super Soft Latex

Very soft and durable latex, used for professional match gloves. Provides a good grip and optimum contact with the ball. Well-suited for all weather conditions.

Ultra Pro Latex

Soft and hardwearing latex, especially developed for our best youth gloves, that combines durability with a fantastic grip. For all weather conditions.

Nova Grip Latex

Top performance latex. Ideal for professional gloves. Provides a good grip in both dry and wet weather compared to other kinds of latex.

Elite Soft Latex

Top performance latex with a good grip in all kinds of weather and great contact with the ball.

Glove technology

Anatomic Fit System

Ensures correct fit, as the glove is designed according to hands' natural grip position

Punch Zone

In non-sliding material for increased force and reduction of the rotary effect on the ball

Wide wrist

Extra wide wrist strap for improved support and comfort

Comfort

Mesh on the inside of fingers to ensure good air circulation

Flexibility

Injection mold spiderweb design for a lightweight feeling and increased flexibility

Protection

Fixed guards

For reinforcement and protection of the fingers

Latex on fingertips

For stability and impact protection

SELECT PROF CARE 

SPORTS SUPPORTS

PROTECTION WITHOUT COMPROMISE

PROFCARE Sports Supports cover every need of both elite and fitness level athletes.

The elastic range with basic supports is used for supporting minor injuries and the wide neoprene range helps to prevent injuries by having the right amount of warmth and support as well as alleviating pain caused by old injuries.

Our neoprene supports are made in a simple and functional design of superlative quality. The specially constructed shape fits instantly to the anatomy of the body, and the series comprises of products that can be used all over the body including the ankle, calf, knee, thigh, groin, elbow and shoulder. PROFCARE Neoprene Supports are used by a large number of handball players and clubs playing at top international level.

An innovative series of supports with kinesiological effect and compression has also been developed and added to this category. Several players in the world of handball already use PROFCARE Compression Supports, and a number of other professional athletes in sports like badminton, basketball, tennis and golf find advantages in our innovation.

THE FUTURE OF COMPRESSION SUPPORT

Visible, green marking on the outside for correct placement of the silicone pattern on the inside.

"Grippy" silicone pattern on the inside, which gives them a kinesiological effect.

6650 COMPRESSION ELBOW SUPPORT - HANDBALL

- Made of 82% polyamide and 18% spandex
- 3-way shockabsorbing EVA pad with outer Armortec material ensures optimal protection and freedom of movement
- Grippy silicone pattern inside with kinesiological effect
- Increases blood flow for more energy in the elbow and easier recovery
- 4-way stretch for mobility and comfort

Nr. Art. 56650xx111 Size XS, S, M, L, XL, XXL **Style no. 66669259700**
Cena brutto 189 pln

6651 COMPRESSION ELBOW SUPPORT - HANDBALL YOUTH

- Made of 82% polyamide and 18% spandex
- Lightweight and with shock-absorbing Hyper Foam pad with Armortec outer material for optimal protection and movement
- Grippy silicone pattern on the inside with kinesiological effect. Increases blood flow for more energy in the elbow and easier recovery
- 4-way stretch for mobility and comfort

Nr. Art. 56651xx111 Size S/M, L/XL
Style no. 66669291100
Cena brutto 99 pln

6610 COMPRESSION SLEEVE

- Made of 82% polyamide and 18% spandex
- A "grippy" silicone pattern on the inside of the sleeve has a kinesiological effect that increases the blood flow, which results in more energy in the arm and easier recovery during and after training and matches
- A 4-way stretch provides increased mobility and comfort
- Practical to play with in warm halls, as the sweat does not run into the hands and thus does not disturb the grip on the ball in handball
- Delivered in sets of two

Nr. Art. 56610xx111 Black
Nr. Art. 56610xx000 White
Nr. Art. 56610xx333 Red

6400 THERMAL TROUSERS

- Thermal trousers made from 1.5 mm. SBR-neoprene
- Optimum fit gives heat and support and is suitable for prevention against problems in the groin area and various muscle damages
- The trousers are reversible with two colour options

Nr. Art. 56400xx010 black/white

Size XS, S, M, L, XL, XXL

Style no. 66677070200

Cena brutto 215 pln

All three versions of the thermal trousers have the color black on the opposite side

6410 BACK SUPPORT

- Back Support in 4 mm. SBR-neoprene
- Provides warmth, stability and pain-relief for muscles in the back and loin

Nr. Art. 56410xx111 Size S, M, L, XL, XXL

Style no. 66675070300

Cena brutto 159 pln

6411 BACK SUPPORT WITH SPLINTS

- 4 mm. SBR-neoprene back support
- Provides warmth, stability and pain relief for muscles of the back and loin
- The support comes with removable splints and straps for added support

Nr. Art. 56411xx111 Size S, M, L, XL, XXL

Style no. 66675084800

Cena brutto 209 pln

6401 THERMAL TROUSERS WITH LYCRA

- Made from 1,5 mm. SBR-neoprene and lycra
- Optimum fit gives heat and support
- The trousers are very suitable for indoor use

Nr. Art. 56401xx111 Size XS, S, M, L, XL, XXL

Style no. 66677078800

Cena brutto 250 pln

6420 GOALKEEPER PANTS

- Goalkeeper pants in 1,5 mm. SBR-neoprene with optimal fit and special EVA-reinforcements on the hips protects against blows or falls
- Provides warmth and support
- Minimizes risk of groin- and other muscle injuries

Nr. Art. 56420xx111 Size S, M, L, XL, XXL

Style no. 66677072600

Cena brutto 230 pln

6205 KNEE SUPPORT WITH LARGE PAD

- Knee Support made from 4 mm. SBR-neoprene and 4 mm. perforated SBR-neoprene giving heat and support
- Shock-absorbent EVA-pad with Armortec outer material protects against blows and shock
- The back side is made from perforated neoprene which increases the flexibility and the breathability

Nr. Art. 56205xx111 Size S, M, L, XL, XXL
Style no. 66671080300
Cena brutto 155 pln

6206 KNEE SUPPORT - VOLLEYBALL

- Comfortable, flexible polyester and spandex knee support
- The exterior of the pad is made of a strong heat-resistant material, and the shock-absorbing EVA Hyper foam protects against blows and falls
- The open back design eliminates bunching behind the knee

Nr. Art. 56206xx111 Size XS, S, M, L, XL, XXL
Style no. 66671084700
Cena brutto 189 pln

6300 THIGH SUPPORT

- Thigh Support in 4 mm. SBR-neoprene
- Provides warmth, support and increases blood flow
- Suitable after strains and for rehabilitation of both front and back of thigh
- Minimizes risk of future injuries

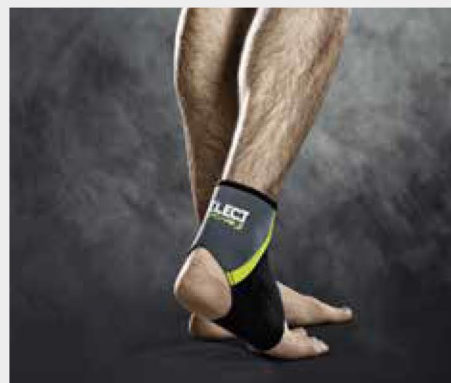

Nr. Art. 56300xx111 Size XS, S, M, L, XL, XXL
Style no. 66670070100
Cena brutto 90 pln

6207 KNEE SUPPORT FOR JUMPER'S KNEE

- Knee support in 4-mm SBR neoprene
- Optimum relief for Schlatzer's and jumper's knee
- Also provides warmth and support to the knee
- Back in perforated neoprene increases flexibility and breathability

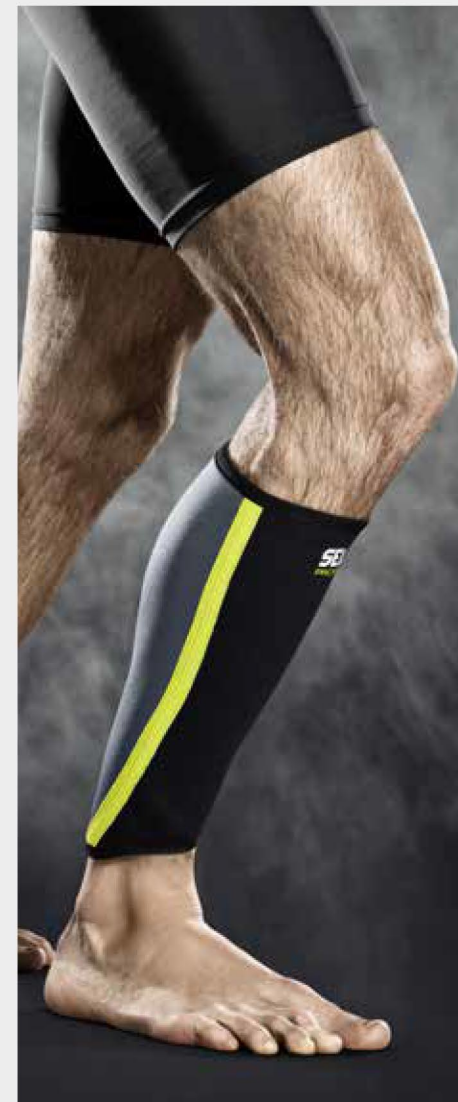

Nr. Art. 56207xx111 Size XS, S, M, L, XL, XXL
Style no. 66671107000
Cena brutto 114 pln

6100 ANKLE SUPPORT

- Ankle Support in 4 mm. SBR-neoprene
- Provides warmth, support and pain relief to the ankle joint

Nr. Art. 56100xx111
 Size XS (35-37), S (37-39), M (39-41), L (41-43), XL (43-46)
Style no. 66672069300
Cena brutto 67 pln

6110 CALF SUPPORT

- Calf Support with front in 1,5 mm. SBR-neoprene and back in 4 mm. SBR-neoprene ensuring considerable warmth to the calf as well as good support
- Increases blood circulation which helps soothe strains and over-exertions

Nr. Art. 56110xx111 Size S, M, L, XL, XXL
Style no. 66676069400
Cena brutto 90 pln

6202 KNEE SUPPORT - HANDBALL UNISEX

- 4 mm. SBR-neoprene with anatomical shape for optimal fit
- Backside perforated SBR-neoprene increases flexibility and breathability
- Provides warmth and support. EVA shock-absorbing pad with outer fabric of strong and heat-durable
- Armortec protects against blows or falls

Nr. Art. 56202xx111 Size XS, S, M, L, XL, XXL, XXXL

SPORTS CARE PRODUCTS

JUST ADD WATER

The new ECO ICE PACK is a CO₂ friendly ice pack that is lightweight, safe to handle and easy to use.

Our icepack without water has enabled us to cut down CO₂ transport emissions by 44% and save transporting 45 tons of water each year.

This sustainable step in our production and logistic setup is an important part of our growing focus on environmentally friendly efforts.

Water is easily accessible at almost any sporting event or training session. Just add water and the ECO ICE PACK is ready for use.

SELECT has world-wide exclusive rights for sports use of the ECO ICE PACK that is made of non-toxic materials that you can dispose of with household waste without harm to the environment.

ECO ICE PACK

- An easy, quick and cooling aid for injuries – just add water

Cena brutto 169 pln

PREVENT HEAL RECOVER

Bring your own
masseur everywhere

BALL-PUNKTUR & BALL-STIK

Ball-Stik and Ball-Punktur was developed more than 45 years ago by relaxation therapist Grete Wolfgang. Since then, the massage balls have become iconic and used in gyms, schools and private homes.

The massage balls soften muscles, stimulate the blood circulation and create lymphatic circulation to reduce swelling.

They are produced in Denmark, and have been since 1972, with phthalate-free plastic.

“Unfortunately, modern life takes place strictly on flat surfaces. We are no longer challenged and lock up our feet in shoes with rigid soles. This causes our bodies to become lazy and forget our natural flexibility. Ball-Punktur is a great way to wake up our bodies again.”

Kristoffer Glavind Kjær, Body Therapist treating top athletes in cycling and handball and owner of ManuVision.

Ball-Punktur is small and handy and can be brought everywhere.

Treating the Tour de France riders, Kristoffer has introduced the Ball-Punktur to help riders like three-time World Champion Peter Sagan recover from a day's race by reducing muscle tension, effectively strengthening muscles and increasing blood flow to help them perform at the highest level.

The massage ball also follows the Danish national handball team, as it was a part of the 2019 IHF Men's World Championship when they took first place, and Ball-Punktur will also be present at the Men's EHF Euro 2020.

BALL-PUNKTUR

- Small massage ball for softening sore muscles, starting the blood circulation and reduction of myalgia
- Can be used anywhere and is easy to bring along in a bag

TACTICS BOARD - FOLDABLE

- Foldable and practical tactics board
- Takes up very little space and can easily be taken to the away ground
- The white board on the back can be used when it is folded
- Includes magnetic pieces, pen and cleaning sponge
- Size 60x45 cm. (w x h)

Nr. Art. 7294100000
Style no. 36049164100
Cena brutto 439 pln

TACTICS BOARD ALU - FOOTBALL

- Tactics board for football
- Includes magnetic pieces, pen and cleaning sponge
- Size 60x90 cm. (w x h)

Nr. Art. 7293900000
Style no. 36049018300
Cena brutto 439 pln

TACTICS BOARD ALU - HANDBALL

- Tactics board for handball
- Includes magnetic pieces, pen and cleaning sponge
- Size 60x90 cm. (w x h)

Nr. Art. 7294000000
Style no. 36049018400
Cena brutto 439 pln

TACTIC FOLDER

- Practical A4 size folder for various sports
- Contains paper, pen and magnetic pieces

Nr. Art. 7293508000
Style no. 36049018200
Cena brutto 125 pln

ACCESSORY SET FOR TACTICS BOARDS

- Extra set for tactics boards consisting of 27 small magnetic pieces, pen and cleaning sponge

Nr. Art. 7293801111
Style no. 800046
Cena brutto 94 pln

RUBBER BASE FOR TRAINING FIGURE

- Can be used indoors or on an artificial grass pitch
- Weighted for better stability
- Bends if one accidentally runs into it

Nr. Art. 8329000000
Style no. 37766151000
Cena brutto 279 pln

INFLATABLE FREE KICK FIGURE

- Height: 205 cm
- 100% rubber
- Put water in the bottom and air in the top part, so it stands up by itself
- Do not use in temperatures below 5 degrees, as the water will freeze

Nr. Art. 8330000445
Style no. 800047
Cena brutto 569 pln

TRAINING FREE KICK FIGURE

- Great alternative to the professional model
- 160 cm, including spike
- Easy to fix in the ground

Nr. Art. 8326000000
Style no. 37766150900
Cena brutto 409 pln

TRAINING FREE KICK FIGURE

- Great alternative to the professional model
- 180 cm, including spike
- Easy to fix in the ground

Nr. Art. 8328000000
Style no. 37766150900
Cena brutto 409 pln

MARKING CONE

- Marking cone made of soft plastic
- 34 cm. high
- With holes for pole
- Weight 310 g.

Nr. Art. 7495600333
Style no. 37766027100
Cena brutto 39,95 pln

MARKING CONE

- Markingcone set with 25 pieces
- Markingcone in soft plastic
- Height 23 cm
- Weight 82 g.

Style no. 800052
Cena brutto 199 pln

MULTI-TRAINER SET

- Training set with 2 cones, 3 poles and 2 pole holders
- The holders have a handy click-system, which allows the poles to be placed exactly as desired, e.g. sideways

Nr. Art. 7491300111 Poleholder
Style no. 37766151900
Cena brutto pln
Nr. Art. 7491200555 Pole
Style no. 37766151800
Cena brutto pln
Nr. Art. 7495600333 Set
Style no. 37766027100
Cena brutto pln

MARKER SET

- Contains 16 yellow, 16 blue and 16 red pieces
- Height per piece 7 cm.
- Weight per piece 52 g.

Nr. Art. 7495100048
Style no. 37766152000
Cena brutto 248 pln

MARKER SET

- Includes 12 yellow and 12 red markers and holder with fastener
- Weight per marker 42 g.

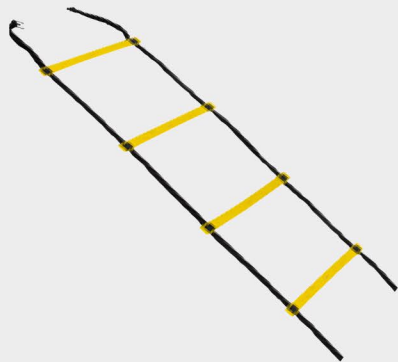

Nr. Art. 7495000024
Style no. 37766027000
Cena brutto 159 pln

FLOOR MARKER MAT SET

- Set of 12 yellow and 12 orange marking mats
- Made in a non-slip rubber material, and therefore especially suitable for indoor use, e.g. for handball training as a substitute for cones.

Nr. Art. 7491400024
Style no. 37766202500
Cena brutto 209 pln

AGILITY LADDER - OUTDOORS

- Ideal for coordination practice
- Interconnectable for extension
- Up to 6 metres long
- Bag included

Nr. Art. 7496300555
Style no. 37766077000
Cena brutto 145 pln

AGILITY LADDER - INDOORS

- Ideal for indoor coordination training
- Can be connected and extended. 6 m. long
- Bag included
- Made of rubber to prevent sliding on the slippery indoor floor

Nr. Art. 7496300666
Style no. 37766202600
Cena brutto 189 pln

PASSING PORT

- Port for precision training of passing etc.
- Depth: 33 mm.

Nr. Art. 7496800444
Style no. 37766151700
Cena brutto 39 pln

SLALOM POLE

- Professional slalom pole in unbreakable plastic
- Length: 160 cm. C 33 mm.

Nr. Art. 7480300000
Style no. 37766151400
Cena brutto 37 pln

BAG FOR POLES

- Practical bag for slalom poles and corner posts
- Can contain 13-15 pcs. depending on thickness

Nr. Art. 8199200111
Style no. 36558191600
Cena brutto 59 pln

RUBBER BASE FOR SLALOM POLE AND PASSING PORT

- Can be used indoors or on artificial grass pitches
- Weighted for better stability
- The base ensures that the pole bends if one accidentally runs in to it

Nr. Art. 7481000000
Style no. 37766151300
Cena brutto 35 pln

TRAINING HURDLE

- Training hurdle for running and leaping exercises
- A course can consist of 6 or 8 training hurdles in a row
- Junior 15 cm.

Nr. Art. 7496515666
Style no. 800011
Cena brutto 26 pln

TRAINING HURDLE

- Training hurdle for running and leaping exercises
- A course can consist of 6 or 8 training hurdles in a row
- Senior 30 cm.

Nr. Art. 7496530444
Style no. 800011
Cena brutto 39 pln

BAG FOR TRAINING HURDLES

- Practical bag for training hurdles
- Can contain 10 senior hurdles

Nr. Art. 8199300111
Style no. 36558191700

BIODEGRADABLE
PRODUCT

BIO WATER BOTTLE

- Transparent water bottle
- Sturdy bottle with a screw-on cap and pull spout
- The Bio-Bottle is made from biodegradable plastic - the plastic is able to decompose entirely making it nature friendly.

Nr. Art. 7522007000 0,7 l.
Style no. 800049
Cena brutto 19 pln

Nr. Art. 7522005000 0,5 l.
Style no. 800049
Cena brutto 17 pln

Bio-Bottle is a biodegradable, environmentally friendly water bottle.

It is made from polyethylene and a masterbatch additive that breaks down the plastic 100% by converting it into biomass and biogas.

The bottle has the same durability as a regular plastic bottle and is heat and sun resistant.

CARRIER

- For 8 bottles

Nr. Art. 7521008000
Style no. 37767028700
Cena brutto 59 pln

METAL RING FOR BIBS

- For collecting and storing bibs

Nr. Art. 6810000000
Style no. 37766026900
Cena brutto 9,95 pln

- Available in clear and black (black only size Senior)

Nr. Art. 6958302000 Junior
Style no. 870018
Cena brutto 25 pln

Nr. Art. 6958303xxx Senior
Style no. 870018
Cena brutto 26 pln

PEDOMETER

- 3D professional step counter
- Counts steps, distance and calculates calorie consumption
- Display with date and time
- Choose between 12 or 24 hour format.
- 30 days memory

Nr. Art. 7491600111
Style no. 870020
Cena brutto 155 pln

JOCKSTRAP

- With removable codpiece
- Size S, L

Nr. Art. 69580xx000 Junior
Style no. 870024
Cena brutto 29,95 pln

STOP WATCH

- With the following functions:
Timing (1/100 sec.), clock and date

Nr. Art. 7491500222
Style no. 870019
Cena brutto 90 pln

LEGENDARY SINCE 1947

SELECT Sport was founded in 1947 by Egil Nielsen, goalkeeper for the Danish national football team, who devoted his life to create the perfect ball. The name of the company was given because of the exclusive leather that was specially selected for the ball production.

By producing many of the ball industry's groundbreaking creations such as the first laceless football, the first ball with 32 panels and balls made of synthetic leather, SELECT naturally became a trendsetter.

Back in 1951, SELECT signed a contract to supply balls for the Danish national football team, and in 1957 SELECT was appointed official supplier by the Danish Handball Federation. These partnerships have continued ever since and are some of the longest in the history of sport. A large number of agreements with both remarkable football and handball federations, clubs and players have since been made.

Today, SELECT is known as the ball specialist. Our footballs, futsal balls and handballs can be found in more than 50 countries, and we are the world's largest supplier of handballs. More than three million different SELECT balls are produced each year through a close cooperation with Anwar Khawaja Industries in Pakistan.

We have been developing balls for 70 years, and the passion for innovative craftsmanship still lives on in our daily work. Football, futsal and handball matches around the world are played with balls built on Egil Nielsen's original principle of 32 panels, just as most balls produced worldwide are based on SELECT's inventions.

1947 Egil Nielsen develops his first football and SELECT is born.

1951 SELECT presents the world's first laceless football.

1962 SELECT presents the world's first 32-panel football.

1972 SELECT presents the world's first 32-panel handball.

1974 SELECT presents the world's first hand-sewn PU football.

2012 SELECT presents the world's first intelligent football, the SELECT iBall.

2017 The world's first resin free handball, Maxi Grip

2018 SELECT presents the world's first intelligent handball, the SELECT iBall.

PRODUKTY SPECJALNE 2020

Produkty specjalne to linia produktów na sezon 2020 wyprodukowanych przez duńską markę Select dla firmy PG SPORT. Produkty te cechują się wysoką jakością, dzięki zastosowaniu materiałów występujących w najlepszych modelach marki Select.
